bathroom design
experience

NU Collection

Embrace
the newest trends

Inspired by European trends toward minimalism, the designers of our NU collection have taken a modular approach. The result? The freedom to create a complete look of your own.

Two handsome approaches

The light approach

Serenely minimalist, this version brings to light the beauty of simple shapes and understated arrangements.

Include a roomy linen cabinet and dressing table and you add functional options without overpowering the look.

The interior lighting is focused on the face and the interplay of NU's interior mirrors make this dressing area a delight to look at and a joy to use.

The practical approach

With a larger medicine cabinet and additional modules, this version makes storage even easier.

The wood veneer counter is protected by superior water resistant varnish as well as a generous washbasin surface that limits the damage caused by splashing.

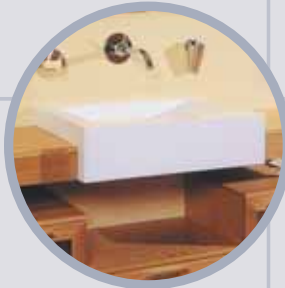

A well thought out design

The mirror moves on sliding channels to reveal a spacious medicine cabinet. Slide the wood frame forward and the round mirror can be pivoted to provide an excellent view of the back of the head. It also slides up and down to adjust to the height of the user.

Vanico-Maronyx sets unbeatable industry standards

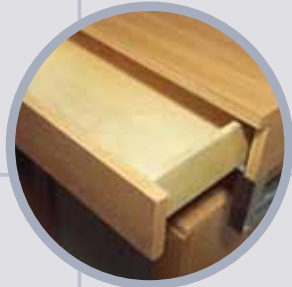

Bracket-lamp: polished chrome and frosted glass including 2 energy saver mini cool white bulbs minitwist 13W (similar to a 60W bulb). CSA-US approved.

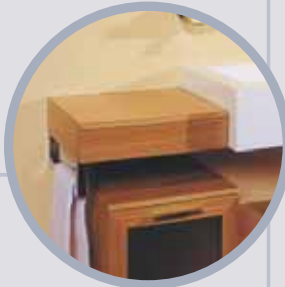

At 27 inches with a 13 litre capacity, the Delphes lavatory is 50% larger than the international norm.

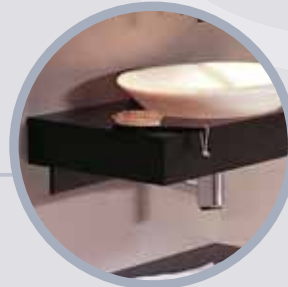

In an original twist, the Delphes lavatory can be front - or side-mounted, semi-recessed or completely visible.

Drawers in wood: quiet Quadro sliders are concealed and roll on ballbearings.

Solid wood support installed behind the countertop adds stability and strength so we could add storage drawers.

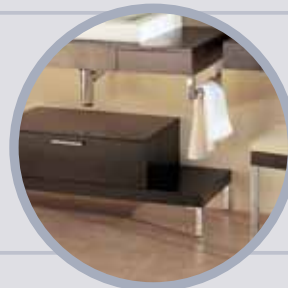

When the Delphes lavatory is replaced by a marble bowl, the anchors are partly visible.

Drawer with hair dryer and curling iron holder (A-8), (included in many layouts).

Optional unit with solid support system to allow for the addition of more counter space.

Wood veneer platform with polished chrome supports equipped with levelers

General characteristics

- All modules are in riftcut oak veneer that highlights the wood grain and brings out its warm beauty. The collection is available in natural oak or Wengé.
- Module and medicine cabinet interiors are all wood veneer.
- Choice of three door finishes: frosted glass with solid wood frame, perforated metal with solid wood frame, wood veneer.
- The Delphes polymer lavatory is available in ultrasheen Unimar or matte Satine, in White or Biscuit.
- Adjustable interior 6 mm glass shelves in modules and medicine cabinets.

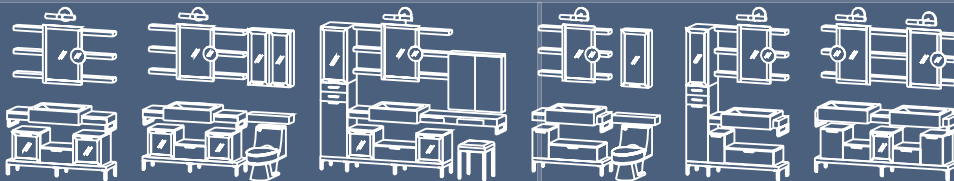

Powder room style

Add big charm to a small space with this innovative model.

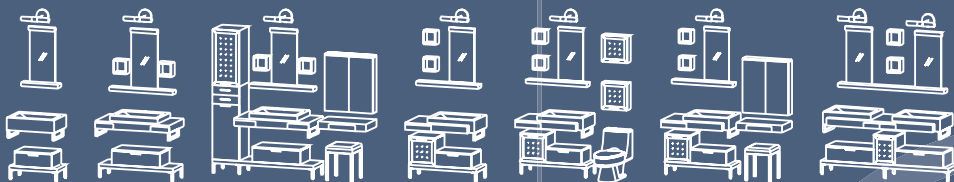

The marble bowl complements the pure stylishness of the NU collection while the half linen closet adds practical storage.

To make planning easier, each version has 20 possible layouts.

For detailed dimensions and more layout ideas, please see your local retailer.
